

The Festival artists' list

The founders of the Festival de Stavelot could not have dreamt that the following list would one day show how many of the world's greatest musicians have graced our stages down the years. We treasure the memories that they have given us, and look forward to the creation of many more to come.

While there are no details within the list of artists beyond a simple name, an exception must be made with respect to one: **Arthur Grumiaux**. Like several other artists who were involved in the creation of the original festival and also with its precursors, the Micha Concerts and the François Prume Circle, he would always remember the first François Prume Competition of 1939. He was the first laureate, at the age of only eighteen, in a contest of the highest standard, and he was happy to say that the winning assisted him to acquire a wonderful instrument which he treasured. On his first return in 1960, he found himself on familiar territory as the festival was coming to life. From 1962 until 1985, the year before his death, Arthur gave freely and unstintingly of his time and expertise to the Festival, together with over one hundred and twenty performances himself, helping it to establish its reputation in the field of chamber music. The Festival owes a huge debt of gratitude to Arthur; his name will forever be associated with the festival, and we honour his memory.

The image features three abstract, hand-painted orange brushstrokes on a white background. The top stroke is a long, horizontal, slightly wavy line that tapers at both ends. The middle stroke is a shorter, more rounded, horizontal shape with a slight curve. The bottom stroke is a thick, circular ring shape, resembling a donut or a thick oval with a hole in the center.
